

1. Write the names for the following compounds.

- a. Cu_3As copper (I) arsenide
- b. P_3O_7 triphosphorus heptaoxide
- c. SeF_4 selenium tetrafluoride
- d. PbS_2 lead (IV) sulfide
- e. V_2O_3 vanadium (III) oxide
- f. Mg_3N_2 magnesium nitride
- g. KCl potassium chloride

2. Write the chemical formulas for the following compounds.

a. Chromium (II) bromide

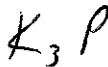

b. Dinitrogen tetraoxide

c. Germanium dichloride

d. Potassium phosphide

e. Lithium hydride

f. Scandium (III) fluoride

g. Manganese (V) sulfide
